

# Rob Oliver

In 1993, at the age of 21, Rob sustained a spinal cord injury while body surfing on the Outer Banks. The injury left him paralyzed from the chest down with limited use of his arms and hands. These limitations forced Rob to take a long hard look at life, relationships and success.

Facing these challenges, Rob determined to "live life to the fullest". He completed his education, including a Master's Degree in Psychology, and set out to make a positive impact on the world around him.

Rob is an award winning speaker and author of the Best Seller, "Still Walking". For over 20 years he has shared his message about overcoming obstacles, focusing on the positive, maximizing our abilities and achieving success with school students, companies and associations around the world. Audiences agree, Rob is memorable, applicable and relatable. His experiences get directly to the heart of the "human condition" we all face.
